

# MALLEEFOWL EDUCATION KIT

The Malleefowl Education Kit has been developed by the VMRG and was released in September 2008.

The kit was written by Tim Byrne, an experienced Primary teacher who taught in schools in the Victorian Mallee and spent 18 years working at the Scienceworks Museum in Melbourne.

The Kit is aimed at Upper Primary Students but would also be suited for Lower Secondary Students.

- Activities are non-sequential, so teachers may pick and choose.
- All activities are cross referenced against the CSF and VELs (Victoria), Bloom's Taxonomy and Gardner's Multiple Intelligences.
- Videos and Powerpoint presentations are included.
- The kit is provided on a DVD and comes with a copy of Pauline Reilly's *Malleefowl, The Incubator Bird* in a printed folder.

The flyer for 'The Malleefowl Education Kit' features a dark green background with a faint malleefowl silhouette. At the top right, a red circular badge reads 'A NEW EDUCATION KIT BY TIM BYRNE'. The title 'The Malleefowl Education Kit' is in large, bold, orange letters. Below it, a subtitle states: 'is an interactive DVD designed to make a substantial contribution to education and conservation for students and teachers'. A central section titled 'THE MALLEEFOWL EDUCATION KIT CONTAINS:' lists four parts: Part 1 (Guide for Teachers), Part 2 (Malleefowl Videos), Part 3 (Presentations: Making Tracks, Camouflage), and Part 4 (Student Activities: 24 student activities, 2 Information sheets). To the right of this list are images of the kit's components: a DVD case, a CD-ROM, and a printed folder titled 'MALLEEFOWL THE INCUBATOR BIRD'. At the bottom, text states the kit is suitable for upper primary school students, produced by the Victorian Malleefowl Recovery Group with support from the Australian Government and the Mallee Catchment Management Authority. Contact information for the Mallee CMA, Wimmera CMA, and VMRG is provided.
